PROFILE

I am Naveed khan a Front-end web developer with a strong
foundation in HTML, CSS, Bootstrap, JavaScript & React js.
My expertise lies in building responsive, user-friendly, and
visually attractive web interfaces.I build projects from
scratch and broadened my skill set by exploring modern
JavaScript frameworks, with a strong focus on React to stay
aligned with the latest trends.
I can work on any kind of Front-End Project and open to
new opportunities where I can leverage my skills to add
value to innovative initiatives, create impactful user
experiences, and collaborate with like-minded
professionals to achieve the best outcomes.

WORK EXPERIENCE

FRONT END PROJECT
FOOD WEBSITE
Live link : https://Naveedkhan09.github.io/cooking-hub/
Restaurant Food Website – Built from Scratch

- Fully responsive design, ensuring compatibility across
  all devices.
- Intuitive and visually appealing front-end UI.
- Enhanced my skills in creating user-friendly and
  engaging web interfaces

FRONT END PROJECT
CURRENT WEATHER DATA APP
Live link: https://Naveedkhan09.github.io/Current-Weather-App/
Real-Time City Weather Data

- Designed with a fully responsive layout, ensuring
  seamless performance across all devices
- Fetches real-time weather data for cities worldwide.
- Integrated a weather API to retrieve and display
  accurate weather information.
- Improved my skills in API integration and building
  interactive, user-friendly front-end applications.
